

# Food Ordering

Offering a mobile food ordering app for your restaurant is just good business. Statistics show that customers order more often from businesses that offer apps, and when they do order, they order more.

Boost return business

Increase revenue per order

Create a competitive advantage over other restaurants in your area.

Take in-app payments

Reward loyal customers

Mobile orders can become a significant percentage of your business

70% of restaurateurs think mobile food ordering is an “up-and-coming” innovation. 40% of customers have already placed an order for food online or from a mobile app. 50% or more of customers order more food when they order food using an app.
